

Team Cycling Elite Copenhagen

Danish Junior Team 

Team Cycling Elite Copenhagen is an ambitious junior cycling team, based in the Copenhagen area. Our goal is to produce and develop the aspiring talents of tomorrow.

The 2014 season was an extremely successful season for the team, with over 20 wins amongst them Paris Roubaix, Course de la Paix and Gent-Menen. This year's team is building for the future with many first year juniors, but still a strong team, including a former u17 Danish champion. The team has already showed great form by taking fourth in the national championship in team pursuit on the track. The team started the road season with a bang, with Christian Lindquist soloing away from the chasers to win the first race of the season. The great form followed through to Tour de Himmelfart with a top-10 result.

We are looking forward to the race in July. Best regards Team Cycling Elite Copenhagen.
